"Mistakes are expensive, Buddy FlamingoMic is not"
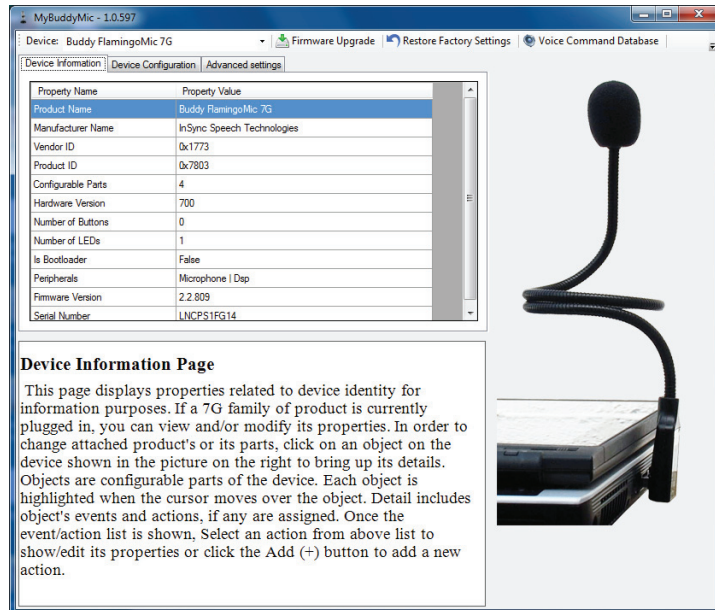

Buddy FlamingoMic 7G

"The Buddy FlamingoMic 7G™ has the accuracy of the headset microphone with the convenience of an internal mic. It's what we've been waiting for... we just didn't know it."
Dana A., Pittsford, NY Certified Dragon Speech Recognition Skills Trainer

- Easy to use, hands-free USB plug-and-play microphone that works right out of the box

- Highly adjustable, incredibly durable 17 inch gooseneck for easy positioning

- Built-in FilteredAudio™ technology coupled with a high precision unidirectional microphone for industry leading noise filtering

- Yields unparalleled accuracy with speech applications such as Dragon NaturallySpeaking and Windows Speech Recognition

- Featuring a 90 degree USB connector, FlamingoMic is designed for laptops, tablets and people "on the go"

- Includes built-in state of the art sound card that eliminates interference caused by on-board electronic circuitry

- Ideal replacement for other expensive portable microphones at an affordable price

- Also included is a convenient durable Buddy carry bag for easy storage and protection

- Works with all operating systems supporting USB interface such as Windows, Mac, Linux and Chrome OS

The FilteredAudio™ Advantage

Our revolutionary FilteredAudio™ technology filters disruptive background noise from mechanical and electronic devices such as air conditioners, telephones and industrial equipment. Best of all, this technology is embedded directly in the device. This means you will not have to install any time-consuming and frustrating drivers or software. You can take FlamingoMic 7G with you wherever you go and enjoy the benefits of hands free, crystal-clear voice capture, even in environments where you can't hear yourself speak. This makes the FlamingoMic 7G the most versatile microphone available for speech applications.
